The universal indications of the approach of woman's great enemy, inflammation and disease of the ovaries, are a dull throbbing pain, accompanied by a sense of tenderness and heat low down in the side, with occasional shooting pains. On examination it may be found that the region of pain will show some swelling. This is the first stage of inflammation of the ovaries. "Dear Mrs. Pinkham:—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Com-

pound has brought into my life. "I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation.

"I felt so weak and sick that I felt sure that I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured. I had gained eighteen pounds and was in excellent health, and am now.

"You surely deserve great success, and you have my very best wishes."—Miss Alice Bailey, 50 North Boulevard, Atlanta, Ga.

At last I had to stay in my bed, and flowed so badly that they sent for a doctor, who said I had inflammation of the avaries and must reflammation of the ovaries, and must go through an operation, as no medicine could help me, but I could not do that.

The Semi-Centennial of the Incorporation of The New York Central.

May 17, 1903, marks the Fiftieth anniversary of the incorporation of the New York Central railroad; a fact interesting in the history of the state of New York, for the consolidation of the ten separate small roads into one line, that formed a continuous route from Albany on the east to Buffalo on the west, was the beginning that made possible the enermous industrial and commercial development in the country contiguous to it.

It Is Agriculturalist Against Money, Lender, and Trouble Comes When the Former Have Lost Tifeir All by Usury.

WASHINGTON, May 19. - Count Casslai, the Russian ambassador, has made the following statement relative to the Jewish tro bies in Russla:

"There is in Russia, as in Germany and Austria, a feeling against certain of the Jews. The reason is that the Jews will not work in the field or engage in agriculture. They prefer to be money lenders. Give a Jew a couple of dollars, and he becomes a banker and money broker. "In this capacity he takes advantage

of the Russian peasant, whom he soon has in his power and ultimately destroys. It is when the patience of the peasant is exhausted that a conflict be-GREENFIELD TO CELEBRATE. tween peasants and Jews occurs. "Emperor Nicholas L sought to help the Jews by ordering the establishment of agricultural colonies in southern Russis, hoping to induce the Jews to engage in agricultural pursuits instead of money lending, but the effort was not successful, nor have other projects for establishing Jewish states been successful.

"The situation in Russia so far as the Jews are concerned is just this: It is the peasant against the money lender and not the Russians against the Jews. There is no feeling against the Jew in Russia because of religion. It is as I have said—the Jew ruins the peasants, with the result that conflicts occur when the latter have lost all their worldly possessions and have nothing to live upon. Letters From Kishineff Confirm Bar-

barities and Ask Help. LONDON, May 19 .- Dr. Hermann Adler, the chief rabbi, in the course of a pastoral charge to his congregation referred to the anti-Jewish riots at Kishineff. The accounts published by the press, he said, had not exaggerated the extent of the barbarities committed. He had received a letter sent by a number of leading citizens of Kishineff which fully corroborated what had been published.

The letter asked for help, for which he made an appeal. Dr. Adler declared that he was pleased that the Americans were going to make representations to the Russian government regarding the massacres and that they were already collecting subscriptions for the relief of victims.

An indignation meeting of east end Hebrews has been held here. Many of the speakers were emigrants from Kishineff and, speaking in Yiddish, made passionate protests against the authors of the outrages. Pain and Suffering.

It is well known that terrible rheumatism, sciatica, and neuralgia cause more helpleustess, acute suffering, and agony, than any of the other diseases that afflict humanity. The great reedicinal virtues of Paine's Celery Compound make it the only trustworthy specific for the cure of all forms of rheumatism and neuralgia. Thousands of strong testimonial letters from the most prominent people of the land, prove that Paine's Celery Compound has banished these terribly fatal troubles when all other treatment has failed. Mrs. Margaret Bethel, of Brainerd, Minn., after thirty years of agonizing tortures had a desire to end her life, if it was the will of Heaven; she almost prayed for the time to lay it down. Heaven-directed, she made use of Paine's Celery Compound, and is enjoying true life

"For thirty years I have been a great sufferer from neuralgia in the head, and also with rheumatism in the whole body. I began taking Paine's Celery Compound and soon found I was much better. Before taking the Compound, my life was such a burden that I almost prayed to fay it down. I was bedfast every two weeks with horrible pain in the bead, back, and neck, until I was almost crazed. I am able to do harder work and more of it today than for twenty-five years. I am really enjoying life again, thanks to Paine's Celery Compound. I am satisfied that my life has been prolonged many years by its use."
